***Detailed Action
Response to Amendment***

1. Applicant's Remarks/Arguments filed on 10/27/2008 has been considered. Claims 1-6 are currently pending.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

2. Claims 1-6 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

The claimed limitations "logic" claimed throughout the body of claim 1 is directed to a mere program listing, i.e., to only its description or expression, is descriptive material per se and hence nonstatutory. Since a computer program is merely a set of instructions capable of being executed by a computer, the computer program itself is not a statutory process. Without the computer-readable medium needed to realize the computer program's functionality, such program listing is considered as nonstatutory functional descriptive material.

Response to Arguments

3. Applicant's arguments filed 10/27/2008 with respect to claims 1-6 have been considered but are moot in view of the new ground(s) of rejection.
